About Me!

Aspiring Computer Engineer seeking an internship to apply my skills in software development. Passionate about working on exciting projects, learning new technologies, and contributing to innovative solutions.

Education

Pune Institute of Computer Technology, Pune (2022 - 2026)
B.E. Information Technology, CGPA: **8.50**

JaiHind Junior College, Dhule (2020)
Secondary School Certificate, Percentage: **96.20%**

JaiHind Senior College, Dhule (2022)
Higher Secondary Certificate, Percentage: **88.00%**

Projects

Real-time Chat Application using Flask

- Developed a **Flask**-based chat app with real-time messaging using **Flask-SocketIO**.
- Implemented **Redis** for message brokering and real-time event handling.
- Used **SQL** for storing user data and chat history.
- Designed a responsive frontend with **HTML**, **CSS**, and **JavaScript**.

Sentiment Analysis of YouTube Comments

- Developed a Python script to analyze sentiment in YouTube comments using **NLTK**.
- Fetched comments via the **YouTube API** and processed text data.
- Classified comments as **Positive**, **Negative**, or **Neutral** using rule-based sentiment analysis.
- Visualized sentiment distribution using **Matplotlib/Seaborn**.
